

Lesson 5

Background Music and Sharks

『BGMとサメ』

収録	内容
本文	Part 1～4の英文文字起こし・全文和訳
音声	Before You Read／Communication Activity／Real Life InformationのQR音源・動画を確認
問題	本文Questions 1～11、Opinion、Comprehension、Retelling、Communication、Grammarの解答
語句	New Words、本文下の太字熟語、重要表現の和訳
補足	Whole Text View、Real Life Informationも収録

写真12枚と、各ページのQRコード先にある桐原書店の公式音声・動画を照合して作成。

Think-Pair-Share / Objectives

Look at the photos above. If these animals were in danger of extinction, which would you like to protect most? Would you like to protect sharks? Why or why not? Work in pairs and share your ideas.

上の写真を見なさい。もしこれらの動物が絶滅の危機にあるなら、どの動物を最も保護したいですか。サメを保護したいですか。なぜですか、またはなぜそう思いませんか。ペアで考えを共有しなさい。

Think. Give your own answer.

自分の考えを答えなさい。

Opinion - 解答例

I would like to protect sharks because they are an important part of marine ecosystems. Even though some people fear them, many shark species are threatened by human activity.

【解答例】サメは海洋生態系の重要な一部なので、保護したいです。恐れる人もいますが、多くのサメの種が人間の活動によって脅かされています。

Objectives / 目標

No.	Objective / 和訳
1	Learn about the effects of background music on our perceptions of sharks and explain them to your friend from Australia. BGMがサメに対する認識へ与える影響を学び、オーストラリアの友人に説明する。
2	Think of background music which can promote donations to protect sharks and present it to the class. サメ保護への寄付を促すBGMを考え、クラスで発表する。

Endangered Species of Sharks / Before You Read

Endangered species of sharks - 絶滅の危機にあるサメ

Species	説明・和訳
whale shark	It is the largest fish in the world, and it grows up to 13 meters long. In spite of its large size, the whale shark is timid. 世界最大の魚で、全長13メートルまで成長する。大きいが臆病である。
mako shark	It is the fastest shark species in the world. It can swim at speeds of over 35 km per hour. 世界最速のサメで、時速35キロを超える速さで泳げる。
scalloped hammerhead	Their populations have decreased by 95% in the last 30 years because of over-fishing. Their fins are made into shark fin soup. 乱獲により過去30年で個体数が95%減少した。ひれはフカヒレスープにされる。

Josh and Yuka are talking about sharks. Listen to their conversation and find out some facts about sharks. Write a number in each blank.

ジョシュとユカがサメについて話しています。会話を聞いて、サメについての事実を確認し、各空所に数字を書きなさい。

Fact	Answer included / 解答入り
Fact 1	Sharks have survived for (420) million years.
Fact 2	There are over (450) species of sharks in the oceans.
Fact 3	About (75) species are in danger of becoming extinct.
Fact 4	Humans kill about (30) to (100) million sharks every year.

Before You Read - QR音声文字起こし・和訳

Yuka, you probably have a negative impression of sharks, right? - Yes. I saw the movie Jaws and remember the big teeth and scary music. - How about you, Josh? - Well, I think sharks are amazing animals and they should be respected more. - Really? Why do you say that? - One thing is that sharks are an important part of the ocean's ecosystem. That's why they've been on this planet for 420 million years. - Wow, that's a long time. - Yes, and there are over 450 species of sharks. Some are as small as 20 centimeters. - Do they need to be protected? - Actually, about 75 shark species are in danger of becoming extinct, mainly because humans hunt them for food and sport. Fishermen kill around 30 to 100 million sharks every year. - That's terrible. We need to stop that.

「ユカ、サメにはたぶん悪い印象を持っているよね」「うん。映画『ジョーズ』を見て、大きな歯と怖い音楽を覚えているわ。ジョシュは?」「サメはすばらしい動物で、もっと大切にされるべきだと思う」「本当?なぜ?」「サメは海洋生態系の重要な一部なんだ。だから4億2千万年もの間、この地球に生きてきた」「すごく長いね」「うん。サメは450種以上いて、わずか20センチほどのものもいる」「保護する必要があるの?」「実は約75種が絶滅の危機にある。主な原因は、人間が食用やスポーツ目的で捕ることだ。漁業者は毎年およそ3千万~1億匹を殺している」「ひどいね。止めなければ。」

CAN-DO（ページ記載の学習目標）

Skill	目標
Listening	BGMについての会話を聞いて、話の展開や話し手の意図を理解する。
Reading	BGMがサメの印象に与える影響の報告文を読み、要点や詳細を理解する。
Speaking - Interaction	相手の発言を促しながら自分の考えを伝える。
Speaking - Production	BGMの影響について要点や根拠を整理して伝える。
Writing	サメ保護の寄付を促すBGMの提案書を書く。

Part 1 - 本文文字起こし・和訳

You are reading a study report about the effects of background music in a scientific journal.

あなたは、科学雑誌に掲載された、BGMの効果についての研究報告を読んでいます。

Sharks have been feared as dangerous creatures by humans throughout the ages. The mass media report shark attacks sensationally. However, statistically the chances of a person actually being attacked or killed by a shark are extremely low. Moreover, negative attitudes toward sharks make it difficult for environmentalists to gain support for their protection.

サメは昔からずっと、人間に危険な生き物として恐れられてきました。マスメディアはサメの襲撃を扇情的に報道します。しかし統計的には、人が実際にサメに襲われたり殺されたりする可能性は極めて低いのです。さらに、サメに対する否定的な態度のために、環境保護活動家がサメの保護への支持を得ることが難しくなっています。

Our fear of sharks comes in large part from the 1975 movie Jaws. It is an adventure movie about a giant great white shark that terrorizes an American resort island. In this film, the presence of the shark is accompanied by ominous music, which has become deeply rooted in popular culture. These days, documentary films about sharks still use Jaws-style background music. In 2013, a research team conducted a study which consisted of two experiments. One was to see how people's perceptions of sharks were influenced by background music used in shark documentaries. The other was to see how that music affected people's willingness to support protection of sharks.

私たちのサメへの恐怖は、その大部分が1975年の映画『ジョーズ』に由来します。これは、巨大なホホジロザメがアメリカのリゾート島を恐怖に陥れる冒険映画です。この映画では、サメの登場に不吉な音楽が添えられ、その音楽は大衆文化に深く根づきました。現在でも、サメのドキュメンタリーは『ジョーズ』風のBGMを使っています。2013年、研究チームが2つの実験からなる研究を行いました。一つは、サメのドキュメンタリーで使われるBGMが、人々のサメに対する認識にどう影響するかを調べるものでした。もう一つは、その音楽がサメの保護を支持しようとする人々の意欲にどう影響するかを調べるものでした。

Part 1 - Questions & Answers

1. Why is it difficult to get support to protect sharks?

なぜサメを保護するための支持を得ることが難しいのですか。

Answer - 解答

Because negative attitudes toward sharks make it difficult for environmentalists to gain support.

サメへの否定的な態度のため、環境保護活動家が支持を得にくいからです。

2. What does the writer say our fear of sharks largely comes from?

筆者は、私たちのサメへの恐怖の大部分が何に由来すると述べていますか。

Answer - 解答

It largely comes from the 1975 movie Jaws.

その大部分は1975年の映画『ジョーズ』に由来します。

3. What did the research team want to find out through the experiments?

研究チームは実験を通して何を明らかにしようとしたか。

Answer - 解答

They wanted to find out how background music affected people's perceptions of sharks and their willingness to support shark protection.

BGMが人々のサメに対する認識と、サメ保護を支持する意欲にどう影響するかを調べようとした。

Opinion 1. What image do you have of sharks?

サメにどのようなイメージを持っていますか。

Opinion - 解答例

I used to think sharks were very aggressive, but now I see them as important marine animals that are often misunderstood.

【解答例】以前はとても攻撃的だと思っていましたが、今は誤解されることが多い重要な海洋生物だと思います。

Part 2 - 本文文字起こし・和訳

First, the researchers conducted an experiment to determine if background music had an influence on people's perceptions of sharks. They split 616 participants into six different groups. The first group watched a 60-second video of sharks swimming with uplifting music. The second group watched the same video with ominous music, and the third watched it without any sound. The fourth, fifth and sixth groups did not have any video to watch, only audio-uplifting music, ominous music, and total silence, respectively. All the participants were then asked about their perceptions of sharks.

まず研究者たちは、BGMが人々のサメに対する認識に影響するかどうかを確かめる実験を行いました。616人の参加者を6つの異なるグループに分けました。第1グループは、気分を高揚させる音楽とともに、サメが泳ぐ60秒の映像を見ました。第2グループは不吉な音楽とともに同じ映像を見て、第3グループは無音で見ました。第4、第5、第6グループには映像がなく、それぞれ音声だけで、気分を高揚させる音楽、不吉な音楽、完全な無音でした。その後、すべての参加者がサメに対する印象について質問されました。

The researchers found that the participants who viewed the video with ominous music had a more negative impression of sharks than those who viewed the video with no sound or with uplifting music. Also, there was no clear difference in participants' impressions of sharks among the "audio-only" groups. This seems to indicate that the choice of music strongly affects people's impressions of sharks when video and music are combined.

研究者たちは、不吉な音楽とともに映像を見た参加者は、無音または気分を高揚させる音楽で映像を見た参加者より、サメに対して否定的な印象を持ったことを発見しました。また、「音声のみ」のグループ間では、参加者のサメに対する印象に明確な違いはありませんでした。これは、映像と音楽が組み合わせられると、音楽の選択が人々のサメに対する印象に強く影響することを示しているようです。

Method of impression measurement

The participants were shown three "negative impression" words (scary, dangerous, vicious) as well as three "positive impression" words (peaceful, beautiful, graceful), and they were asked to rate how each word applied to sharks on a 7-level scale (1: not at all, ... 7: very much).

参加者には、3つの「否定的印象」の語（scary, dangerous, vicious）と3つの「肯定的印象」の語（peaceful, beautiful, graceful）が示され、それぞれがサメにどの程度当てはまるかを7段階（1＝まったく当てはまらない、7＝非常によく当てはまる）で評価するよう求められました。

Chart	Result of Experiment 1
Groups 1-3	同じサメ映像＋uplifting music／ominous music／no sound
Groups 4-6	映像なし＋uplifting music／ominous music／total silence
Result	映像＋不吉な音楽のGroup 2が、Groups 1～3の中で最も否定的。音声のみの3群には明確な差なし。

Part 2 - Questions & Answers

4. What kinds of background music were used in the experiment?

実験ではどのようなBGMが使われましたか。

Answer - 解答

Uplifting music and ominous music were used.

気分を高揚させる音楽と不吉な音楽です。

5. Which group had the most negative impression of sharks among Groups 1, 2 and 3?

Groups 1、2、3のうち、サメに最も否定的な印象を持ったのはどのグループですか。

Answer - 解答

Group 2, which watched the video with ominous music.

不吉な音楽とともに映像を見たGroup 2です。

Opinion 2. How would you feel if you watched a video of sharks swimming with uplifting music, ominous music, and without any sound?

サメが泳ぐ映像を、高揚感のある音楽、不吉な音楽、無音で見たら、それぞれどう感じますか。

Opinion - 解答例

Uplifting music would make me feel calm and positive. Ominous music would make the sharks seem dangerous. Without sound, I would probably feel more neutral.

【解答例】高揚感のある音楽なら穏やかで好意的に感じ、不吉な音楽なら危険に見え、無音なら比較的中立に感じると思います。

Part 3 - 本文文字起こし・和訳

Furthermore, the second experiment was set up to gauge people's feelings regarding conservation of sharks. The measurement method was the same as in the first experiment. First, 759 participants were divided into 6 groups and they responded in regard to their perceptions of sharks. Then, the researchers told the participants that the researchers would make a 100-dollar donation to one of the three different funds. They were the Shark Conservation Fund, the Dolphin Conservation Fund, or the Free Option Fund. The participants were asked to vote for the fund which they thought should receive the donation.

さらに、第2の実験は、サメの保護に関する人々の気持ちを測るために設定されました。測定方法は第1の実験と同じでした。まず759人の参加者が6グループに分けられ、サメに対する認識について回答しました。次に研究者たちは、3つの異なる基金のうち1つへ100ドルを寄付すると参加者に伝えました。その3つは、サメ保護基金、イルカ保護基金、自由選択基金でした。参加者は、寄付を受け取るべきだと思う基金に投票するよう求められました。

The result was as follows. The group that had watched the shark video with uplifting music was more likely to vote for the Shark Conservation Fund than the other groups. This result suggests that background music also influences people's willingness to support shark protection.

結果は次のとおりでした。気分を高揚させる音楽とともにサメの映像を見たグループは、ほかのグループよりもサメ保護基金に投票する傾向が強かったのです。この結果は、BGMがサメの保護を支持しようとする人々の意欲にも影響することを示しています。

Chart	Result of Experiment 2
Groups 1-6	Part 2と同じ6条件
Funds	Free Option Fund／Dolphin Conservation Fund／Shark Conservation Fund
Result	uplifting music付きのサメ映像を見たGroup 1が、サメ保護基金に最も投票しやすかった。

Part 3 - Questions & Answers

6. What did the research team want to measure by conducting the second experiment?

研究チームは第2の実験で何を測ろうとしましたか。

Answer - 解答

They wanted to gauge people's feelings regarding shark conservation, especially their willingness to support it.

サメの保護に関する人々の気持ち、特に保護を支持する意欲を測ろうとしました。

7. Which group was most likely to vote for the Shark Conservation Fund?

サメ保護基金に最も投票しそうだったのはどのグループですか。

Answer - 解答

The group that watched the shark video with uplifting music (Group 1).

気分を高揚させる音楽とともにサメの映像を見たGroup 1です。

8. What does the result of the experiment suggest?

実験結果は何を示していますか。

Answer - 解答

It suggests that background music influences people's willingness to support shark protection.

BGMがサメ保護を支持しようとする人々の意欲に影響することを示しています。

Opinion 3. Which of the three funds would you vote for to make a 100-dollar donation? Why?

100ドルを寄付するなら、3つの基金のどれに投票しますか。なぜですか。

Opinion - 解答例

I would vote for the Shark Conservation Fund because sharks are essential to healthy marine ecosystems and many species are threatened.

【解答例】サメは健全な海洋生態系に不可欠で、多くの種が脅かされているので、サメ保護基金に投票します。

Part 4 - 本文文字起こし・和訳

The results of the two experiments show that background music affects people's views of sharks and their willingness to support shark protection. The results have important implications for the way nature and animal documentaries should be created in the future. Documentaries are often viewed as an objective and reliable source of information. Also, for some people, documentaries may be the primary source of information on wild animals. Therefore, it is important for both producers and viewers to be aware of how background music affects people's interpretation of the content.

2つの実験結果は、BGMが人々のサメに対する見方と、サメの保護を支持しようとする意欲に影響することを示しています。この結果は、今後、自然や動物のドキュメンタリーをどのように制作すべきかについて重要な意味を持ちます。ドキュメンタリーはしばしば、客観的で信頼できる情報源とみなされます。また、人によっては、野生動物についての主な情報源がドキュメンタリーである場合もあります。したがって、BGMが内容の解釈にどう影響するかを、制作者と視聴者の双方が意識することが重要です。

"Documentary producers may want to include ominous background music for entertainment value," said one member of the research team. "But by biasing the viewers' perception of sharks, it may also ruin the educational value of the documentary." In turn, viewers of documentaries should be careful not to be misled by background music.

「ドキュメンタリー制作者は、娯楽としての価値を高めるため、不吉なBGMを入れたと思うかもしれませんが」と研究チームの一人は述べました。「しかし、それによって視聴者のサメに対する認識を偏らせ、ドキュメンタリーの教育的価値を損なう可能性もあります。」一方で、ドキュメンタリーの視聴者は、BGMに惑わされないよう注意すべきです。

Part 4 - Questions & Answers

9. What role can documentaries play in providing people with information?

ドキュメンタリーは人々に情報を提供するうえで、どのような役割を果たしますか。

Answer - 解答

They can be an objective and reliable source of information and, for some people, the primary source of information on wild animals.

客観的で信頼できる情報源となり、人によっては野生動物についての主な情報源になります。

10. What should producers and viewers of documentaries be aware of?

ドキュメンタリーの制作者と視聴者は何を意識すべきですか。

Answer - 解答

They should be aware of how background music affects people's interpretation of the content.

BGMが内容の解釈にどう影響するかを意識すべきです。

11. What should viewers of documentaries be careful about?

ドキュメンタリーの視聴者は何に注意すべきですか。

Answer - 解答

They should be careful not to be misled by background music.

BGMに惑わされないよう注意すべきです。

Opinion 4. Which do you watch more often, documentaries or entertainment movies? If you watch documentaries, what kind do you watch?

ドキュメンタリーと娯楽映画のどちらをよく見ますか。ドキュメンタリーを見るなら、どのようなものですか。

Opinion - 解答例

I watch documentaries more often, especially nature and science documentaries, because I enjoy learning about animals and the environment.

【解答例】私はドキュメンタリー、特に自然や科学の作品をよく見ます。動物や環境について学ぶのが好きだからです。

Whole Text View - 文字起こし

Part 1 - The background and objectives of the study (178 words)

You are reading a study report about the effects of background music in a scientific journal. Sharks have been feared as dangerous creatures by humans throughout the ages. The mass media report shark attacks sensationally. However, statistically the chances of a person actually being attacked or killed by a shark are extremely low. Moreover, negative attitudes toward sharks make it difficult for environmentalists to gain support for their protection. Our fear of sharks comes in large part from the 1975 movie *Jaws*. It is an adventure movie about a giant great white shark that terrorizes an American resort island. In this film, the presence of the shark is accompanied by ominous music, which has become deeply rooted in popular culture. These days, documentary films about sharks still use *Jaws*-style background music. In 2013, a research team conducted a study which consisted of two experiments. One was to see how people's perceptions of sharks were influenced by background music used in shark documentaries. The other was to see how that music affected people's willingness to support protection of sharks.

Part 2 - An experiment about people's perceptions of sharks (161 words)

First, the researchers conducted an experiment to determine if background music had an influence on people's perceptions of sharks. They split 616 participants into six different groups. The first group watched a 60-second video of sharks swimming with uplifting music. The second group watched the same video with ominous music, and the third watched it without any sound. The fourth, fifth and sixth groups did not have any video to watch, only audio-uplifting music, ominous music, and total silence, respectively. All the participants were then asked about their perceptions of sharks. The researchers found that the participants who viewed the video with ominous music had a more negative impression of sharks than those who viewed the video with no sound or with uplifting music. Also, there was no clear difference in participants' impressions of sharks among the "audio-only" groups. This seems to indicate that the choice of music strongly affects people's impressions of sharks when video and music are combined.

Part 3 - An experiment about people's willingness to protect sharks (140 words)

Furthermore, the second experiment was set up to gauge people's feelings regarding conservation of sharks. The measurement method was the same as in the first experiment. First, 759 participants were divided into 6 groups and they responded in regard to their perceptions of sharks. Then, the researchers told the participants that the researchers would make a 100-dollar donation to one of the three different funds. They were the Shark Conservation Fund, the Dolphin Conservation Fund, or the Free Option Fund. The participants were asked to vote for the fund which they thought should receive the donation. The result was as follows. The group that had watched the shark video with uplifting music was more likely to vote for the Shark Conservation Fund than the other groups. This result suggests that background music also influences people's willingness to support shark protection.

Whole Text View - 文字起こし（続き）

Part 4 - What we can learn from the findings of the study (141 words)

The results of the two experiments show that background music affects people's views of sharks and their willingness to support shark protection. The results have important implications for the way nature and animal documentaries should be created in the future. Documentaries are often viewed as an objective and reliable source of information. Also, for some people, documentaries may be the primary source of information on wild animals. Therefore, it is important for both producers and viewers to be aware of how background music affects people's interpretation of the content. "Documentary producers may want to include ominous background music for entertainment value," said one member of the research team. "But by biasing the viewers' perception of sharks, it may also ruin the educational value of the documentary." In turn, viewers of documentaries should be careful not to be misled by background music.

※和訳は前掲のPart 1～4に全文掲載しています。

Comprehension - 文字起こし・解答

1. Give a title to each part. / 各Partに題名をつけなさい。

Part	Answer / 解答
Part 1	(b) The background and objectives of the study
Part 2	(d) An experiment about people's perceptions of sharks
Part 3	(a) An experiment about people's willingness to protect sharks
Part 4	(c) What we can learn from the findings of the study

2. Listen to the sentences and circle T if the sentence is true. Circle F if the sentence is false.

(a) T / F (b) T / F (c) T / F (d) T / F

【QR確認結果】Whole Text ViewのQR音源は、Part 1～4の本文朗読のみで、判定対象の(a)～(d)の英文は収録されていません。写真にもその4文は印刷されていないため、この資料だけではT/Fを確定できません。

Retelling Plus - 文字起こし・解答

1. Complete the chart below by writing a word in each box.

Chart section	Completed chart / 解答入り
Part 1 - background	sharks = feared as [dangerous] creatures → difficult to gain support for their [protection]
Part 1 - objectives	how [background] music affects 1) people's [perceptions] of sharks 2) people's [willingness] to protect sharks
Part 2 - experiment 1	video with [ominous] music → more negative impression of sharks
Part 3 - experiment 2	video with [uplifting] music → more willing to support shark protection
Part 4 - conclusion	[background] music affects 1) people's [views] of sharks 2) their [willingness] to support shark protection
Part 4 - implications	documentary producers and [viewers] should be aware of: background music affects the [interpretation] of the content

2. Talk about the study to an exchange student from Australia who has a negative impression of sharks. Try to change his/her attitude toward sharks.

Many people fear sharks because of sensational media reports and movies such as Jaws. However, shark attacks are statistically very rare. The study showed that ominous background music makes sharks seem more negative, while uplifting music can increase people's willingness to support shark protection. So, when you watch shark documentaries, remember that the music may influence your feelings. Sharks are important animals, and many species need our protection.

【発表例】扇情的な報道や『ジョーズ』のような映画のため、多くの人がサメを恐れています。しかし統計的にサメの襲撃は非常にまれです。この研究では、不吉なBGMがサメをより否定的に見せる一方、高揚感のある音楽はサメ保護を支持する意欲を高める可能性が示されました。サメのドキュメンタリーを見るときは、音楽が気持ちに影響しているかもしれないことを覚えておきましょう。サメは重要な動物で、多くの種が私たちの保護を必要としています。

Communication Activity - QR音声・解答

Three students are discussing what kind of music to choose as background music at their school cafeteria. Listen to their conversation and answer the questions.

3人の生徒が、学校の食堂でどのような音楽をBGMに選ぶか話し合っています。会話を聞いて質問に答えなさい。

Now we know it's important to understand the effects of background music. I heard about an experiment at one restaurant. When they played slow background music, the customers stayed longer. When they played fast music, the customers didn't stay as long. And the restaurant also had higher sales when they played slow music. - Are you saying that people ordered more food because they stayed longer? - No, actually, the amount of food they ate didn't change, but they ordered more drinks. - That's interesting. By the way, they should play good background music in our school cafeteria during lunchtime. - That's a good idea. Let's choose some good music. - I think rock music is the best. - Isn't it too loud? People want to relax during lunchtime. How about pop music? It'll make our lunchtime more cheerful. - I agree with you. - Wait a minute. We're talking about what kind of music to play in the background while we eat. It is different from simply choosing the music you want to listen to. In that case, I suggest quiet and soothing music such as classical music. - I like classical music. But it's difficult to choose only one kind because different people have different tastes. How about asking all the students to vote for the kind of music they'd like to hear during lunchtime? - That sounds good. I agree with you. - Me too.

「BGMの効果を理解することが重要だと分かったね。あるレストランの実験を聞いたよ。ゆっくりしたBGMのとき、客は長く滞在し、速い音楽のときはそれほど長く滞在しなかった。遅い音楽のときは売上も高かった」「長くいたから食べ物を多く注文したの?」「実は食べる量は変わらず、飲み物を多く注文したんだ」「おもしろいね。学校の食堂でも昼食時に良いBGMを流すべきだよ」「いい考え。音楽を選ぼう」「ロックが一番」「大きすぎない? 昼休みはくつろぎたいよ。ポップスは? 明るくなる」「賛成」「ちょっと待って。食事時のBGMは、単に自分の聞きたい音楽を選ぶのとは違う。クラシックのような静かで心が落ち着く音楽を提案するよ」「クラシックは好き。でも好みは人それぞれだから1種類に決めるのは難しい。昼食時に聞きたい音楽を全校生徒に投票してもらうのは?」「いいね、賛成」「私も。」

1. Which of the following is true about their conversation?

会話の内容として正しいものはどれですか。

Answer - 解答

(d) slow music → increase in orders of drinks

(d) 遅い音楽 → 飲み物の注文が増える

2. Which of the following did all three students agree to do?

3人全員がすることに賛成したのはどれですか。

Answer - 解答

(c) to ask the other students' opinions

(c) ほかの生徒の意見を尋ねること

Communication Activity - Presentation Model

Present a piece of music to accompany a documentary video of sharks in order to promote donations to protect sharks.

Form	Model answer / 解答例
Group name	Ocean Guardians
Background music	Gentle, uplifting instrumental music with a calm rhythm
Reasons	It will help viewers see sharks as graceful and important rather than frightening. A positive impression may make viewers more willing to donate to shark conservation.
Ending remark	We hope this music will encourage people to understand and protect sharks. Thank you for listening.

Useful Expressions - 提案に対して返答をする

Function	Expressions
Making suggestions	Let's ~. / How about ~? / Why don't we ~? / I suggest ~.
Agreeing	That sounds good. / I agree (with you). / You're right. / It shouldn't be a problem.
Disagreeing	I don't agree. / Wait a minute.

Grammar G1 - さまざまな不定詞

不定詞の意味上の主語は for ～ で表します。不定詞の意味を否定する場合は、not や never を to の直前に置きます。

No.	Example / 和訳
1	It is important for both producers and viewers to be aware of how background music affects people's interpretation of the content. BGMが内容の解釈にどう影響するかを、制作者と視聴者の双方が意識することが重要です。
2	Negative attitudes toward sharks make it difficult for environmentalists to gain support for their protection. サメに対する否定的な態度は、環境保護活動家が保護への支持を得ることを難しくします。
3	Viewers of documentaries should be careful not to be misled by background music. 視聴者はBGMに惑わされないよう注意すべきです。

Exercises 1 - Fill in the blanks and complete the conversations.

Item	Completed answer / 解答入り
1	A: I want to be a good soccer player like you. Could you give me advice? B: I think it is [important for you to practice] every day.
2	A: I thought you went to the park to play baseball. B: I decided [not to go] because I have a lot of homework.
3 - model	It is easy for me to teach English because I have taught it for many years. On the other hand, it is difficult for me to speak French fluently.

Grammar G2 - seem [appear] to do / to have + 過去分詞

to do は述語動詞と同じ時点を、to have + 過去分詞は述語動詞が表す時より前のことを表します。

No.	Example / 意味
1	This seems to indicate that the choice of music strongly affects people's impressions of sharks when video and music are combined. (～するように思われる)
2	Jack seems [appears] to have passed the exam. (合格したように思われる)
3	Annie seemed [appeared] to be a little down yesterday. (昨日少し元気がなかったように思われた)
4	Jack seemed [appeared] to have passed the exam. (合格していたように思われた)

Exercises 2 - Fill in the blanks and complete the conversations.

Item	Completed answer / 解答入り
1	A: Yuka speaks French very well, doesn't she? B: That's right. She seems [to have studied] in France. [study]
2	A: He said he had nothing to do with the case. What do you think? B: I doubt it. He seemed [to know] something about the case. [know]
3 - model	You appear to be very sick. You should leave school early today.

Real Life Information - 本文・和訳

How sound affects the way we feel and think / 音が感情と思考に与える影響

50 dB - Consumer behavior

Music has a huge impact on the way consumers spend their money and their time. Supermarkets that played up-tempo music increased their sales by 38 percent compared to when they played slower tempo music. In one restaurant chain, customers who ate while listening to slow-tempo songs stayed 13 minutes and 56 seconds longer than those who listened to up-tempo songs. Customers who stayed longer ordered more beverages.

音楽は、消費者がお金と時間をどのように使うかに大きな影響を与えます。速いテンポの音楽を流したスーパーマーケットでは、遅いテンポの音楽を流したときと比べて売上が38%増えました。あるレストランチェーンでは、遅いテンポの曲を聞きながら食事をした客は、速いテンポの曲を聞いた客より13分56秒長く滞在しました。長く滞在した客は飲み物をより多く注文しました。

60 dB - Visual attention

Studies have shown that listening to music during study breaks improves brain cognition. Relaxing in a quiet place while listening to music on your headphones for just 20 minutes will improve your visual concentration to a surprising degree, and you'll be motivated to do your best.

研究によると、勉強の休憩中に音楽を聞くと脳の認知機能が向上します。静かな場所でヘッドホンを使ってわずか20分音楽を聞きながらくつろぐと、視覚的な集中力が驚くほど高まり、最善を尽くそうという意欲も生まれます。

80 dB - Food perception

In an environment in which noise at a level of 80 decibels can be heard, one's sense of taste, particularly for saltiness and sweetness, becomes dull. However, sensitivity to crunchiness becomes enhanced. For example, many people find in-flight meals to be unappetizing. One of the reasons for this is the low bass hum of the airplane's engines. Engine noise has the effect of dulling your taste of salty, sugary, and spicy things. On the other hand, many people seem to enjoy the crunchy texture of snacks like nuts more on airplanes than on the ground.

80デシベルの騒音が聞こえる環境では、特に塩味と甘味に対する味覚が鈍くなります。しかし、カリカリした食感への感度は高まります。たとえば、機内食を食欲のわかないものだと感じる人は多く、その理由の一つが飛行機のエンジンの低いブーンという音です。エンジン音には、塩辛いもの、甘いもの、辛いものの味覚を鈍らせる効果があります。一方、ナッツのようなカリカリしたスナックの食感は、地上より機内のほうがおいしく感じる人が多いようです。

Real Life Information - 本文・和訳（続き）

70 dB - Work and study

Some kinds of noise have a positive effect on people. Moderate noise enhances the efficiency of work and promotes abstract information processing in the brain. If you're not convinced yet, try studying something in a train. You'll probably notice that you'll get a lot done quickly.

騒音の中には人に良い影響を与えるものもあります。適度な騒音は作業効率を高め、脳内での抽象的な情報処理を促進します。まだ納得できないなら、電車の中で何か勉強してみてください。おそらく、多くのことを素早くこなせると気づくでしょう。

Real Life Information - QR動画・問題

Today we're going to explore the fascinating topic of how sound affects us in our daily life. Music has a huge impact on the way consumers spend their money and their time. Up-tempo music is apparently good for sales. On the other hand, slow-tempo music is better for restaurants because people tend to stay longer and order more beverages. Listening to music during study breaks improves brain cognition. On airplanes, the low hum from the engines makes our sense of saltiness and sweetness dull, while crunchy snacks become more enjoyable. Moderate noise, such as the noise on trains, can enhance work efficiency and promote abstract information processing in the brain.

【QR動画要約】音が日常生活で私たちにどう影響するかを扱う。速い音楽は売上に、遅い音楽はレストランでの長い滞在と飲み物の注文に影響する。勉強の休憩中の音楽は認知機能を高める。飛行機の低いエンジン音は塩味・甘味の感覚を鈍らせる一方、カリカリした食感を強く感じさせる。電車内のような適度な騒音は作業効率や抽象的な情報処理を高めることがある。

Listen / Write / Speak

Listen: Listen to the sentences and circle T if the sentence is true. Circle F if the sentence is false. (a) T/F (b) T/F (c) T/F (d) T/F

【QR確認結果】QR先は上記内容の解説動画で、判定対象の(a)～(d)の4文は収録されていません。写真にも4文自体は印刷されていないため、T/Fは確定できません。

Task	Transcription / Model answer
Write	Make your own T/F statement based on the information above. Model: Slow-tempo music made restaurant customers stay longer. (T)
Speak	Ask your partner whether your statement is true or not. Model: Is my statement true or false? - It is true.

New Words - 単語リストと和訳

Part 1

Word / Item	和訳・解答・補足
shark	サメ
journal	専門誌、定期刊行物
mass	大衆の、大量の
sensationally	扇情的に、大げさに
statistically	統計的に
environmentalist	環境保護活動家
Jaws	『ジョーズ』（映画名）
terrorize	恐怖に陥れる
resort	行楽地、リゾート地
presence	存在、登場
accompany	～に伴う、添える
ominous	不吉な
documentary	ドキュメンタリー、記録映画
perception	認識、見方
willingness	意欲、進んでしようとする気持ち

Part 2

Word / Item	和訳・解答・補足
determine	確かめる、決定する
split	分ける、分割する
uplifting	気分を高揚させる
respectively	それぞれ、各々
strongly	強く、大いに

Part 3

Word / Item	和訳・解答・補足
furthermore	さらに、その上
gauge	測る、評価する
conservation	保護、保全
measurement	測定
donation	寄付、寄付金
fund	基金、資金
dolphin	イルカ

Part 4

Word / Item	和訳・解答・補足
implication	意味合い、影響
reliable	信頼できる
primary	主な、第一の
producer	制作者、プロデューサー
viewer	視聴者
interpretation	解釈
bias	偏らせる、先入観を持たせる
ruin	台なしにする、損なう
mislead	誤解させる、惑わせる

Real Life Information - 単語リスト

Word / Item	和訳・解答・補足
consumer	消費者
up-tempo	テンポの速い
beverage	飲み物、飲料
cognition	認知、認知機能
headphone	ヘッドホン
concentration	集中、集中力
moderate	適度な、中程度の
enhance	高める、向上させる
promote	促進する
decibel	デシベル（音量の単位）
particularly	特に
saltiness	塩味
sweetness	甘味
dull	鈍い、鈍らせる
sensitivity	感度、敏感さ
crunchiness	カリカリした食感
unappetizing	食欲をそそらない
bass	低音
hum	ブーンという低い音
salty	塩辛い
sugary	砂糖のように甘い
crunchy	カリカリした
texture	食感、手触り

Bold Phrases - 本文下の太字熟語

写真の本文下に太字で載っている熟語を、例文とともに収録しています。

Word / Item	和訳・解答・補足
become rooted in ～	～に根づく、定着する。例：The habit of separating garbage has become rooted in our society. (ごみを分別する習慣は私たちの社会に根づいた)
be likely to do	～しそうである、～する可能性が高い。例：Mary is likely to win the tennis tournament. (メアリーはそのテニス大会で優勝しそうだ)
be aware of ～	～を意識している、～に気づいている。例：He is aware of his weaknesses. (彼は自分の弱点を自覚している)
in turn	今度は、順番に、その結果。例：She supported me during a difficult time. In turn, I will support her in the future. (彼女が困難な時に支えてくれたので、今度は私が将来彼女を支える)

Useful Expressions - 本文中の重要表現

Word / Item	和訳・解答・補足
throughout the ages	昔からずっと、あらゆる時代を通じて
in large part	大部分は
consist of ～	～から成る
gain support for ～	～への支持を得る
have an influence on ～	～に影響を与える
split A into B	AをBに分ける
without any sound	まったく音なしで
seem to indicate	～を示しているように思われる
be combined	組み合わせられる
be set up to do	～するために設定される
regarding ～	～に関して
in regard to ～	～に関して
vote for ～	～に投票する
as follows	次のとおり
have implications for ～	～に重要な意味・影響を持つ
be viewed as ～	～とみなされる
primary source	主な情報源
be careful not to do	～しないよう注意する
be misled by ～	～に惑わされる、誤解させられる

Lesson 5 Review - 全体のまとめ

Section	Key point / 要点
Background	マスメディアや『ジョーズ』の不吉な音楽が、サメへの恐怖を強めてきた。
Experiment 1	映像＋不吉な音楽は、サメへの否定的な印象を強めた。音声だけでは明確な差がなかった。
Experiment 2	映像＋高揚感のある音楽を見た人は、サメ保護基金への投票意欲が高かった。
Conclusion	BGMはサメへの見方と保護への意欲の両方に影響する。
Implication	制作者も視聴者もBGMの影響を意識し、音楽に惑わされないようにする必要がある。

One-sentence Summary

Background music can shape how viewers perceive sharks and even influence whether they are willing to support shark conservation.

BGMは、視聴者がサメをどう認識するかを形づくり、サメ保護を支持する意欲にまで影響し得ます。
